UNIVERSAL ENGINEERING SYSTEMS LIMITED

ENVIRONMENTAL POLICY STATEMENT

Universal Engineering Systems Limited is committed to meeting its consumer needs in an environmentally responsible and sustainable way applying high standards of environmental protection, adhering to the principles of sustainable development and protection of biodiversity.

The Company aims to apply the best international standards of practice in all aspects of its operations to minimize its impact on biodiversity and promote the sustainability of natural resources.

In order to meet this commitment, the Company shall: -

- Comply with all national and international regulatory environmental requirements
- Aim to Reduce, Recycle, Reuse or Recover energy from any waste that is generated.
- Carry Environmental assessments to minimize, mitigate or offset our impact on the Environment.
- Share information with suppliers and other relevant stake holders, assisting them in understanding and managing their impact on Environment, hence minimizing our impact throughout the supply chain.
- Ensure the responsible use of energy throughout our business, including conserving energy improving energy efficiency, and giving preference to renewable over non-renewable energy when feasible.
- Participate in efforts to improve environmental protection and understanding. Sharing appropriate pollution prevention technology, knowledge and methods with other stakeholders.
- Foster environmental awareness and understanding in all employees, suppliers, customers and subcontractors. Where practicable, the company will provide information and assistance to customers on environmental issues arising from its products and services. Improvement will be continuous and the company will report internally and externally on its progress against its goals and objectives.
- Provide adequate resources to enable implementation of the policy guidelines.
- Continuously review and improve the policy to ensure it meets the standards.
