

Environmental policy

Dimension Developments Limited are committed to the prevention of pollution, the safeguarding of the environment and public health whilst carrying out our trading activities.

As part of our corporate social responsibilities we are committed to maintaining an effective environmental management system to help accomplish our strategic business objectives.

To that end, Dimension Developments shall:

Commit to the prevention of pollution, reduction of waste and to using resources sustainably

Reduce energy consumption and greenhouse gas emissions

Source and promote a product range to minimise the environmental impacts of both production and distribution

Work to minimise our environmental impacts, designing our products to be efficient, re-usable and recyclable

Commit to meet all applicable environmental legislation and any other environmental requirements to which we subscribe

Commit to promote environmental sustainability to our clients and suppliers

Strive to continually improve our environmental performance through improving our environmental management system

Make our environmental programme an integral part of current and future business strategies.

This policy is available to all employees, and to all other stakeholders upon request. All requests for information regarding our environmental management system should be addressed to our Quality and Compliance Manager.

All managers are responsible for ensuring this policy's successful implementation within their own departments. All employees and workers are required to adhere to this policy.
