

# ENVIRONMENTAL POLICY

[www.digitalscreen.com](http://www.digitalscreen.com)

According to Digital Screen's Senior Management, the principles that guide the company's commitment to the environmental management system are the following:

-  Preventing pollution by **controlling environmental aspects** in all its activities.
-  **Continuous improvement of the environmental management system** to improve performance in any aspect related to the environment.

## Mission

To provide our customers with **all our products and/or services** ensuring the highest **quality**, being **proactive** and fully **committed and respectful of the environment**.

## Vision

**To be the market leader** by facing up to and leading all technological, environmental and social changes that take place in the market.

# The continuous improvement of the environmental management system is implemented under the following criteria:

*Digital*

-  **Complying with all legal requirements**, regulations and other stipulations that affect the company's activity and services, society and the consumer.
-  Research and testing of **new, more sustainable processes, materials and resources**.
-  **Design and production with a clear ecological approach** by minimizing the use of resources both in the production of materials and in the services offered.
-  **Promoting the use of products that are more environmentally friendly**. We offer a wide range of 100% PCR and 100% recyclable products and promote the circular economy.
-  **Managing all waste following the criteria of minimization, reuse and recycling** and, where this is not possible, eliminating it in a way that has the least impact on the environment.
-  Ensuring that the paper derivatives used to print our products come from **FSC or PEFC** certified suppliers.
-  Target of being **carbon neutral by 2025**.

# The continuous improvement of the environmental management system is evaluated annually through the following tools:

*Digital*

## Indicators (KPIs)

- D20:\* Resource consumption indicators
- D21:\* Waste indicators

## Monitoring of objectives

- D13:\* Analysis of the environment and commitments
- D11:\* Control of the chain of custody
- D14:\* Evaluation of environmental aspects
- D15:\* Legal compliance
- D16:\* Management of environmental opportunities
- D17:\* System monitoring

**Internal and external audits** of the formal certifications obtained: **FSC, PEFC, ISO14001.**

**Qualitative evaluation of suppliers** of raw materials and services based on environmental criteria.

**Continuous training** for all employees, customers and suppliers.
